The Blue Book of Essential Detectable Products

The most popular items from our
huge range of metal detectable
and X-ray visible products

**etectamet**[™]
The Global Leader in Detectable Products

See the full range at
detectamet.global

Avoid expensive recalls and protect your brand's reputation

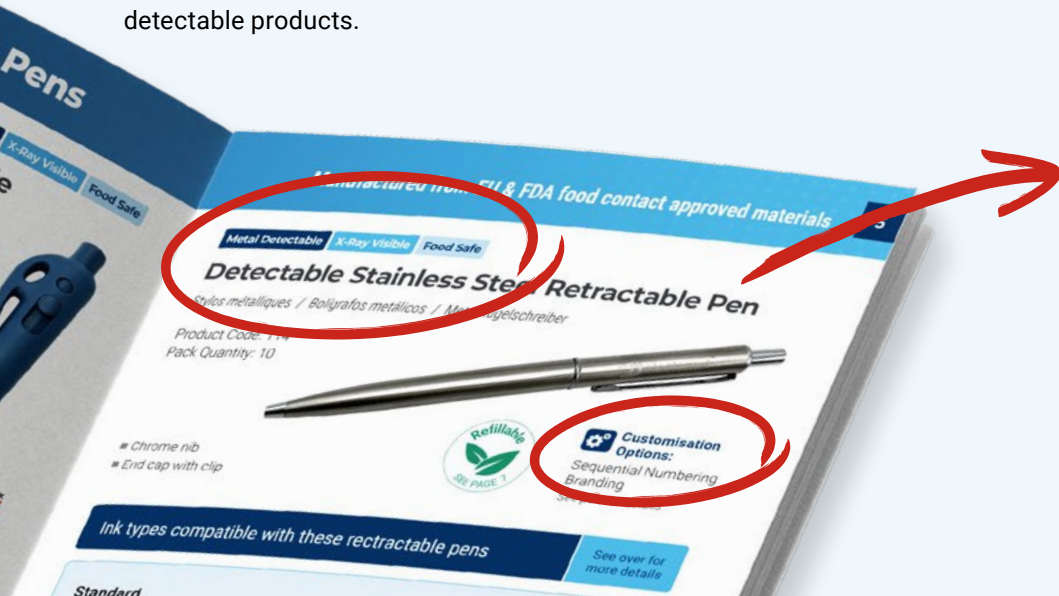

Physical contaminants can damage equipment and cause injury. And if they reach the consumer your company will be faced with an expensive recall, which could seriously harm your brand's reputation.

The safest way to eliminate and protect against this risk is to use our metal detectable and X-ray visible products in all areas of your processing facility.

Made from a unique, patented EU & FDA food contact approved polymer that contains the **highest level of detectable additive**, our product range offers you the best in detectability without compromising on durability.

This catalogue showcases the products our customers rely on most in their businesses. Visit detectamet.global to see our full range of thousands of detectable products.

Contents

Stationery	4
Workwear & PPE	38
Mixing & Handling	52
Cleaning Equipment	62

We are ISO accredited in:

9001: Quality Management
14001: Environmental Management
45001: Occupational Health and Safety Management

It's imperative that our products contribute to making food production safer. This is why we work in partnership with BRCGS through their Partner Connection Programme.

Metal Detectable

Indicates that the product is either metallic or contains a metal detectable additive*.

X-Ray Visible

Indicates that the product contains an X-ray visible additive*.

Food Safe

Indicates that the product is food contact approved and specifically suitable for use within a food or pharmaceutical production facility.

Customisation Options:

Indicates that the product can be customised by adding branding, other messages or sequential numbering. See inside back cover for details.

*Ensure your detection equipment is calibrated correctly to maximise the chances of detection. See page 86 for our detector calibration test pieces.

Metal Detectable X-Ray Visible Food Safe

Detectable Heavy-Duty Retractable Pen

Stylo robuste
Bol'grafo de alta resistencia
Extrastarker Kugelschreiber

Product Code: 101-I
Pack Quantity: 50

Our best-selling retractable pens, designed to be extremely durable and shatter proof – minimising any risk of foreign body contamination.

With both pens made from our unique detectable polymer, the rugged construction makes them resilient, so they won't break under stress. The ergonomic grip allows a firm hold in a wide range of environments. The Elephant™ is a stylish alternative to the Heavy-Duty pen.

- Retractable – no need for a cap!
- Shatter proof and virtually unbreakable
- Two body styles, three clip styles

Ask

Why should I choose sequentially numbered products?

Your workforce can be assigned sequentially numbered equipment for the duration of their shift, enhancing traceability opportunities. Our sequentially numbered products are typically laser engraved, and add another level of traceability to your equipment.

Metal detectable
aluminium
foil strip

Effectively encloses hair whilst allowing easy breathing.

- Manufactured in our cleanroom facility!
- Stretch to fit – suitable for all beard styles
- Contains metal detectable aluminium foil strip

Colours

Our in-house cleanroom production environment reduces foreign body contamination

To provide high-quality goods for a wide range of PPE-reliant industries, we've invested significantly in cleanroom facilities and introduced a new way of working.

Designated staff are trained in cleanroom practices and are equipped and trained to minimise cross contamination risks.

Our controlled cleanroom environments reduce foreign body contamination and have real-time air monitoring and particulate filtration. To help combat pathogens, each piece undergoes extensive UV-c irradiation to kill microbes, which are prevented from growing back by vacuum packing as standard.

For your peace of mind, our PPE manufacturing process is part of our ISO accredited facility ensuring the quality in production remains consistently high.

Our cleanroom production facility

Ask Detectamet™

Why should I colour code my workwear and equipment?

Colour coding is a great way to create easy-identification opportunities for quality assurance professionals that eliminate language barriers. We offer hundreds of products in multiple colour options, giving you the opportunity to colour code your workforce, produce and equipment in your facility.

Can't find what you need?

We'll design and manufacture it for you!

If you require a detectable product that isn't currently listed in this catalogue or on our website, we have the capacity and expertise to design and manufacture products to suit your requirements.

We pride ourselves on our development and manufacturing of high quality detectable products.

Our agile product development team regularly designs bespoke detectable products for our food, beverage and pharmaceutical customers.

Our manufacturing capability has recently been enhanced by investment in state of the art injection moulding machines. Manufacturing in-house enables our high quality manufacturing specifications to be met within our ISO certification.

To discuss your custom-made detectable product requirements please contact your local Detectamet office. See back page for details.

Metal Detectable **X-Ray Visible** **Food Safe**

Detectable Colour Coding Bands

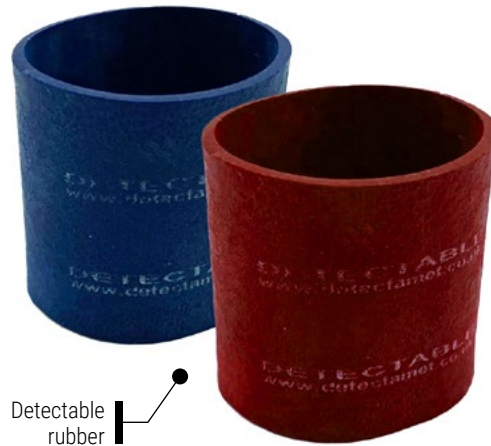

Bande de codage couleur
Banda de codificación de color
Farbkodierband

Product Code: 821-1029
Pack Quantity: 5

Colour code a variety of tools and equipment in your workplace. Particularly good for attaching to our range of stainless steel equipment.

- Unstretched diameter: 25 mm (1")
- Stretched diameter: approx. 50 mm (2")

Great for colour coding a wide variety of your tools and equipment

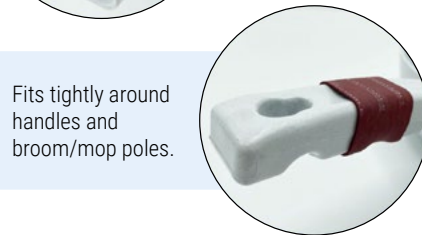

Detectable rubber

Colours

Improve traceability by colour coding your tools and equipment.

Fits tightly around handles and broom/mop poles.

Fully metal detectable and X-ray visible.

Metal Detectable **Non-Detectable** **X-Ray Visible** **Food Safe**

Detectable & Non-Detectable Tote Bin Cover

Housses de poubelle jetables
Cubiertas para contenedores desechables
Einwegabdeckung für Vorratsbehälter

Product Code: 545-A6
Pack Quantity: 250
(supplied on roll)

- Suitable for 200/300 litre (53/79 gallons) tote bins
- Size: length 830 mm (32.67")
width 620 mm (24.40")
gusset 120 mm (4.72")
- Thickness: 38 µm (1.5 MILS)

Choose same day despatch.

Ask

What are the benefits of adding company branding or messaging to my products?

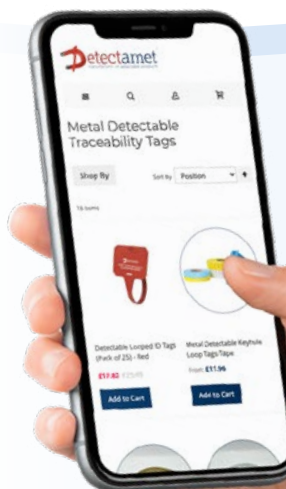

Adding bespoke branding to our wide range of products can enhance both traceability and recognisability of your equipment. Our detectable products can also be customised for bespoke messaging, such as shift patterns or allergen information, to enhance your food safety practices.

View the full range online

Detectable Traceability Products

Link your credit account to our online store for fast, convenient ordering. Contact your local Detectamet office to get started.

Shadow Boards

Reduce your costs by improving equipment accountability and minimising production interruptions.

Colour coding

Our shadow boards can be colour-coded, enabling workplace segregation to reduce the risk of cross contamination.

Sequential numbering

The optional addition of sequential numbering printed on the board and engraved on corresponding tools gives you total traceability of tools and equipment across departments and production areas.

Total customisation

We'll build the perfect shadow board to your specifications. Choose your selection of tools, colour coding and unique tool identification. Add company branding and colours to finish the look.

Secure storage

Add a security cage with a lockable or magnetic door to keep tools safe.

Fully detectable boards

All components in our shadow boards can be manufactured to be fully metal detectable.

Fully detectable tools

Give yourself peace of mind by equipping your shadow board with our detectable range of tools.

Total traceability

Use colour-coding and sequential numbering to give total traceability of tools and equipment.

Moveable trolleys

Our shadow boards can be trolley mounted for easy manoeuvrability through your processing environment.

See page 62 for our range of Cleaning Stations.

Why use Detectamet shadow boards?

Our shadow boards are a valuable organisational tool to store frequently used equipment, quickly identify missing items and ensure all tools are accounted for.

Start reducing your wasted costs now

By using our Shadow Boards, your tools and equipment are organised, kept in good condition, and stored cleanly and efficiently – reducing wasted costs from non-returned items and interruptions to production.

Discuss your requirements

Contact your local Detectamet office to discuss your Shadow Board requirements. Our dedicated account managers will be on hand to coordinate your shadow board production and delivery.

Improve Traceability – Use Sequential Numbering

Adding sequential numbering to your products gives complete traceability of tools and equipment in your production environment.

Sequentially numbering tools is particularly important if production presents higher risks, making it even more important to eliminate any type of contamination.

  Contact your local Detectamet office to discuss your requirements.

Got a question? Visit detectamet.global for our 24hr customer chat.

Jaulas de seguridad
Kasten mit Sicherheitsgitter

Product Code: 620C
 Pack Quantity: 1

Keep tools safe and secure with this stainless steel security cage, contributing to internal traceability systems.

Select from our build options below and add branding and sequential numbering if required.

Size

- Medium: W 300 mm, x H 500 mm, x D 70 mm (11.81 x 19.68 x 2.75")
- Large: W 450 mm, x H 750 mm, x D 70 mm (17.71 x 29.52 x 2.75")
- X-Large: W 750 mm, x H 850 mm, x D 70 mm (29.52 x 33.46 x 2.75")

Colour 

Door Type

- Stainless Steel Mesh (1" spacing)
- Acrylic
- Polycarbonate

Backboard

- Standard
- Customised

Door Security

- Lockable
- Magnetised

Customisation Options

See page 91 for more details

Customised Branding

Display your company logo and/or customised message for added brand consistency.

Sequential Numbering/Shadow Board

Add sequential numbering to secured equipment and tools, and implement corresponding numbers on the backboard for increased traceability.

  Contact your local Detectamet office for more details. See back page..

Metal Detectable X-Ray Visible Food Safe

Detectable Vegetable Knife

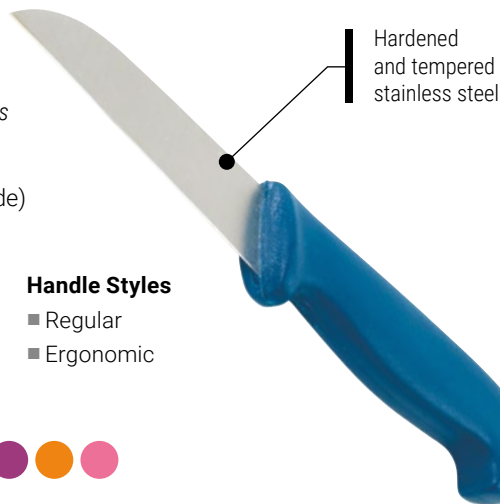

Couteau à légumes / Cuchillo para verduras
Gemüseputzmesser

Product Code: 600-T054 (straight blade)
Pack Quantity: 10

- | | | |
|----------------------|---------------------|----------------------|
| Blade Lengths | Blade Styles | Handle Styles |
| ■ 89 mm (3.5") | ■ Straight | ■ Regular |
| ■ 101 mm (4") | ■ Straight Tip | ■ Ergonomic |
| ■ 152 mm (4, 6") | ■ Blunt End | |

Colours

Customisation Options: Sequential Numbering | Branding | See p91 for details

Metal Detectable X-Ray Visible Food Safe

Detectable Boning Knife

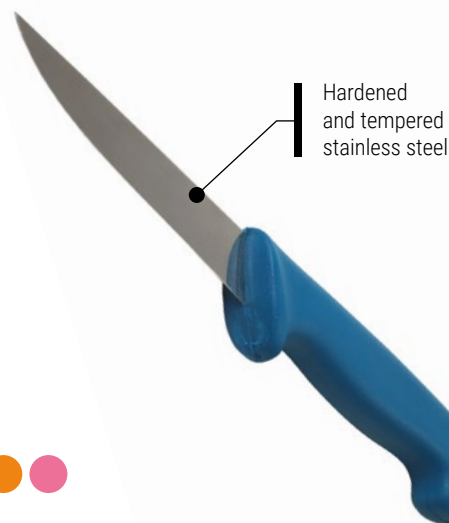

Couteau à désosser / Cuchillo para deshuesar
Ausbeinmesser

Product Code: 600-T052 (straight blade)
Pack Quantity: 10

- | | |
|----------------------|---------------------|
| Blade Lengths | Blade Styles |
| ■ 127 mm (5") | ■ Straight |
| ■ 152 mm (6") | ■ Curved |

Customisation Options: Sequential Numbering | Branding | See p91 for details

Metal Detectable X-Ray Visible Food Safe

Detectable Chopping/Cutting Board

Planche à découper et à hacher
Tabla de cortar/picar
Schneidebrett

Product Codes: See below
Pack Quantity: 1

- Excellent wear and abrasion resistance
- FDA and EU Directive 2002/72 EC compliant

Board Sizes

- 610 x 457 x 10 mm (24.01 x 17.99 x 0.39")
Product Code: 826-S376-P01
- 610 x 457 x 50 mm (24.01 x 17.99 x 1.96")
Product Code: 826-S376-P01

Colour

Metal Detectable X-Ray Visible Food Safe

Detectable Mallet

Maillet / Maza / Fäustel

Product Code: See table below
Pack Quantity: 1

- Mallet head is metal and X-ray detectable.
Fibreglass handle is not detectable.

Colour (head)

Additional rubber grip on small size

Size	Head Dia.	Length	Height	Weight	Product Code
Sm	25 mm (0.98")	255 mm (10.03")	76 mm (2.99")	156 g (5 1/2oz)	810-S056-P01
Med	50 mm (1.96")	300 mm (11.81")	118 mm (4.64")	381 g (13 1/2oz)	810-S062-P01

Metal Detectable X-Ray Visible Food Safe

Detectable Silicone Gaskets

Joints en silicone / Juntas de silicona
Silikondichtungen

Product Code: Gasket Pack Quantity: 5

Fully metal and X-ray detectable low profile full face flange silicone gaskets are available in a range of sizes, shapes, thicknesses and colours.

Manufactured from EU & FDA food contact approved detectable silicone, our detectable gaskets are perfect for food, beverage and pharmaceutical processing environments looking to minimise the risk of foreign matter contamination.

Available as standard in British (BS) and American (AS) gasket sizes.

Sizes: A large range of standard sizes available, with bespoke sizing available on request.

Shapes: Alongside our standard circular gaskets, we can also manufacture a variety of other shapes, including square, triangular or circular flanged.

Thicknesses: We offer multiple thicknesses of detectable silicone gaskets to suit the required compression / tightness of the seal.

Tensile Strength: 8 MPa (1160 PSI)

Shore Hardness: 63 A

Environmental Resistance: Ozone, Cosmic Radiation, Oxidation, Ionising Radiation, Ultraviolet Light, Corona Discharge, Weathering

Available in five colours, providing the opportunity to colour code gaskets for traceability purposes.

Heat resistances

Minimum: -60 °C (-76 °F)

Maximum: 230 °C (446 °F)

Maximum Intermittent: 250 °C (482 °F)

Colours

Bespoke Gaskets

Bespoke gaskets are available on request including picture frame and dove-tail gaskets. Complete our gasket specification form to allow us to help you with your enquiry. Supplied with CAD drawing.

  Contact your local Detectamet office for more details. See back page.

Metal Detectable X-Ray Visible Food Safe

Detectable Silicone Rubber Sheets, Strips and Extrusions

Product Code: 815/817

Pack Quantity: Various

Excellent heat/flame resistance and good ageing and weathering characteristics – perfect for demanding applications within food factories.

- Available in a variety of sizes and thicknesses
- Easily converted into gaskets, electrical seals and washers
- Temperature range: -60 to 200 °C (-76 to 392 °F)
- FDA compliant to 21 CFR 177.2600
- Shore hardness: +/- 5° TO 60°

Laminated ID Test Card

Is your detection equipment calibrated correctly?

Testing and calibration of detection equipment is essential before food processing can be considered to be operating under detectable protection.

Using our test pieces ensures that your equipment is calibrated correctly for your specific products, packaging, contaminant types, equipment type and sensitivity.

HACCP compliance

Compliance with HACCP requires inspection equipment to be installed at critical control points and be routinely QA tested with the results documented.

Using our test pieces to calibrate your equipment allows you to demonstrate your commitment to a Quality Management System.

Got a question? Visit detectamet.global for our 24hr customer chat.

Calibrated and certified to BS EN ISO 9002 and UKAS

All test pieces are supplied with a Certificate of Conformity, detailing the test piece size, contaminant type and its ISO and UKAS certification, enabling traceability of its manufacture.

All test pieces are engraved with a corresponding number to your certificate of conformity to give you enhanced traceability for each test piece.

Stainless Steel Test Card

Our standard test pieces are available to order now

Choose from acrylic, heavy-duty PTFE or FDA Acetal Copolymer in a wide variety of our standard sizes, shapes, colours and contaminants. If required, same day despatch is available on these standard test pieces.

Test piece contaminants

Our test pieces are available in a wide variety of contaminant types:

Metal Detectable Contaminants

- Ferrous - Chrome
- Non-Ferrous - Brass
- Stainless Steel 316
- Stainless Steel Wire 316
- Stainless Steel 304
- Stainless Steel 420
- Stainless Steel 440C
- Titanium
- Phosphor Bronze
- Copper Wire
- Aluminium

X-Ray Contaminants

- Ceramic
- Glass - Soda Lime
- Glass - Borosilicate (black)
- Glass - Crystal
- PTFE Teflon
- Nylon Grade 1
- Rubber Nitrile
- Zirconia

i Additional contaminants are available
Contact your local Detectamet office for details.

Detector Test Sticks

Bespoke test pieces manufactured to your specifications

Metal Detector Test Sticks

Baguettes/tiges/bâtons de test
Varillas/bastones/barras de prueba
Teststäbe/Prüfstäbe/Teststäbchen

Product Code: STICK
Pack Quantity: 1

Ensure your detection equipment is calibrated correctly. Suitable for metal and X-ray detector contaminants and available in a wide range of materials.

Contaminants

All contaminants including:

- Ferrous (chrome)
- Non-Ferrous (brass)
- Stainless Steel 316 & 304

Colours

Sizes

Available in a wide variety of sizes.
Bespoke sizes also available.

Materials

- High visibility acrylic
- Clear acrylic
- Acetal

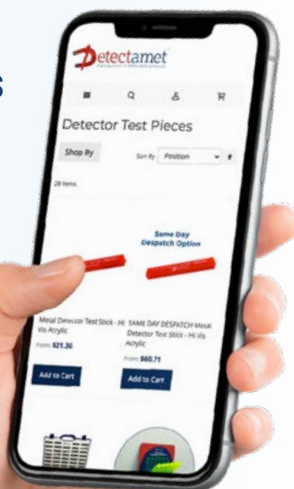

Supplied with
free Certificate
of Conformity

X-Ray Detector Laminated ID Test Card

Carte de test aux rayons X plastifiée
Tarjeta de prueba radiográfica laminada
Laminierter Röntgenprüfkarte

Product Code: ID TEST CARD
Pack Quantity: 1

Perfect for sliding between packaging and food items, our laminated test cards are manufactured with high visibility colours for easy recognition and have a wipe-clean surface.

Contaminants

All contaminants including:

- Ceramic
- Glass - Soda Lime
- PTFE

Card size

54 x 86 mm (2.12 x 3.39")
Bespoke sizes available.

Detector Test Kits

Product Code: 945-T744-X44

Our test piece kits are available as standard or completely bespoke, with your requested test pieces fitted within purpose-cut foam housing.

All bespoke test kits are supplied with a USB stick with relevant Certificate of Conformity information.

Storage boxes are also available to keep your range of calibration pieces safe.

Contact your local Detectamet office for more details. See back page.

Food Safe

All our test pieces are manufactured from food safe materials.

Detectamet accept no responsibility or liability for any errors or omissions in this catalogue. All information, including the approximate sizes, is provided in good faith and no warranty is given as to its accuracy. Detectamet reserves the right to alter, add or delete products featured in this catalogue and products may vary in design and finish from the ones displayed in this catalogue. All content is protected by copyright and cannot be reproduced without express permission.

Customisation Branding

Add your company branding or message to a wide variety of our detectable products. Branding is applied to polymer-based products using a pad printing process and applied to metallic surfaces using laser engraving. Contact your local Detectamet office (see back page) to discuss your requirements.

Customisation Sequential Numbering

Adding sequential numbering to our products gives complete traceability of tools and equipment in your production environment. Sequentially numbering tools is particularly important if production presents higher risks, making it even more important to eliminate any type of contamination. Contact your local Detectamet office to discuss your requirements.

Colour Coding

A variety of our products are available in a selection of colours and many are available in our nine standard manufacturing colours. Colour coding can be used to reduce cross-contamination and enhance traceability of tools and equipment. Try colour coding yours by factory zone, allergen type or days of the week.

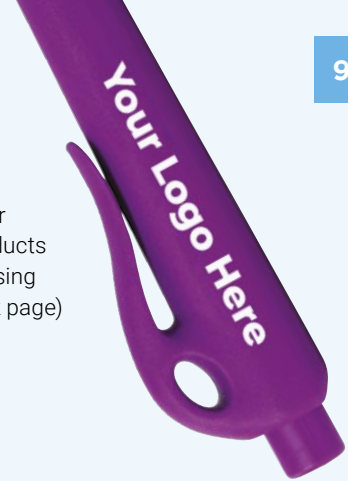

Bespoke Products

Looking for a detectable product we don't stock? We have the design expertise and manufacturing capability to produce bespoke metal detectable items, tools and equipment. Contact your local Detectamet office (see back page) to discuss your requirements.

Become a Distributor

Take advantage of our distributor prices, product data sheets and bespoke product packaging by becoming a certified Detectamet Distributor. Contact your local Detectamet office to discuss this great opportunity.
